FRESH-AIRE UV COMMERCIAL SIZING SURVEY

Fresh-Aire UV has two HVAC disinfection options.

Option A) Coil/air handler disinfection. Ideal for maintaining a clean coil, drain pan and surfaces within the AHU addressing any biological blow-off and all-around air treatment. **Provide coil size.**

Option B) High-level air disinfection (ADS system). Parallel lamp systems that are mounted in the return or supply that provides a higher level of airstream disinfection.

Send sizing survey to info@odellassoc.com or call your local O'Dell office.
